13	<p>Any Other Business</p> <p>The declining membership numbers was discussed at length and especially in respect of Juniors. J. Kimber was instrumental and passionate in raising this matter as a concern for attention, which received wide debate.</p> <p>It was considered that support must be given to Clubs who have Juniors on their books and those actively seeking recruits. Support must come from the KCTTA as well as the MDTTA and possibly incorporating Borough/City Councils Development Teams. The support being in the form of amenities, including venues, advertising, getting more qualified coaches and development days.</p> <p>The floor was very much in favour of a creative plan , developed in conjunction with the Development Officer and volunteers in form of a Focus Group to make the desire come to fruition. The floor strongly felt that this matter must not be allowed to be just talk but be acted upon, by the Committee and the Clubs.</p>
